

Venture Center

Service offering: QuikSite

Basic website for nascent startups

(ver: 8 Jan 2014)

Features:

- Set up a basic but professional website within 1 day (after receipt of content)
- Inputs and advise on how to build a low maintenance, low cost website
- Get your own domain name (.com address)
- ***Website will be based on a blog platform so that you can edit content on your own (Blog platforms will have some design limitations based on templates available.)***
- Venture Center will train company founder or nominee on how to update content
- Pages will be hosted on Venture Center's hosting space (so, founders will not have FTP access to the hosting space)
- Get email accounts with your domain name (up to 10 email addresses). Venture Center will set-up email accounts for you. Email accounts will be on email platform provided by the hosting space provider (will not be GMAIL, YAHOO MAIL etc)
- When you are ready to take your own hosting space, Venture Center will help you transfer your site to your new hosting space

Eligibility:

- Only for Venture Center's resident incubatees, associate incubatees, Lab2Mkt companies and pre-incubatees

Pricing and payment terms:

- Setting-up and annual fee for first year: Rs 4000
- Annual fee per year after first year: Rs 2500
- Fee includes cost of hosting space, domain name registration for 1 year, email addresses and its administration.
- Full payment in advance at beginning of service contract or year. Payments once made are not refundable.

Additional terms:

- Venture Center reserves the right to terminate the service if the contents of the website of the startup do not match up to Venture Center's ethical and professional standards.
- Venture Center reserves the right to stop this service or refuse the service without giving any reasons.
- The website should provide credits to a) Venture Center and b) any other source used for visual designs or web style sheets.
