| Section 4: Comments & Suggestions | | | | | | | |
| How can these workshops be improved further? | | | | | | | |
| 1 | Extra time should be given | | | | | | |
| 2 | It will really help us trouble shooting with our problems working on flowcytometry | | | | | | |
| 3 | By carrying more practicals directly related to users experiments. It was very good in all. | | | | | | |
| 4 | This workshop is good and I learnt more about flow cytometry | | | | | | |
| 5 | May be the duration of workshop could be extended for a detailed interaction | | | | | | |
| 6 | By increasing number of days because two days are really not enough. | | | | | | |
| 7 | Many people could not run software on computer. A crosscheck with the computers a day back will really help. | | | | | | |
| 8 | The hands on training time and data analysis time can be increased. | | | | | | |
| Please suggest a topic on which you wish to have a workshop on: | | | | | | | |
| 1 | Mass Spectrometry | 5 | Confocal microscopy | | | | |
| 2 | Image flow cytometer | 6 | Confocal Imaging | | | | |
| 3 | DNA fingerprinting, RFLP, FISH, RIA etc | 7 | SEM, TEM | | | | |
| 4 | Confocal microscopy, Human cell culture | | | | | | |
