

Four-weekends workshop on Scientific Videos

for JoVE, New Journal of Physics and other journals

(Sat-Sun) 25-26 Feb 2017, 4-5 Mar 2017, 11-12 Mar 2017 and 18-19 Mar 2017
Venue: Training room, 100 NCL Innovation Park | Time: 9am-5pm

Potential Gains from the workshop

- How to make videos for the Journal of Visualised Experiments, New Journal of Physics and journals that accept video as supplementary materials.
- How to plan and execute video documentation of experiments, behavior of model organism, and data collection for ethological and ecological studies.
- How to use video as an aid to presentations in conferences and teaching in classrooms

Note: Participants will need to come with your laptop and a camera for video.

Who should attend

PhDs, Post Docs and early career scientists

Anchor Faculty

K. P. Madhu
Science Writing Consultant

More about him at
scienceandmediaworkshops.wordpress.com

Course Outline

- **Pre-production:** Concept, research, content script, video script, screen play, story board. Process for writing scripts, demonstrations, practice
- **Production:** Camera, lighting, composition, audio recording. Processes for shooting. Demonstrations, Practice
- **Post-production:** Editing. Principles, demonstration, introduction to software, practice.
