

Venture Center is pleased to announce Demonstration and training of Pulp Testing Equipments.

One of the most critical aspects of paper-making is pulp quality. These instruments are designed specifically for the analysis of different raw materials. The selection and specimen preparation to further study of cooking pattern and good quality pulp are produced in laboratory scale. These instruments are used in research, development, alteration of pulp characteristics of optimizing paper and studying of board product properties before going into commercial production.

1. Semi automated sheet former
2. Micro grinder
3. Beating and freeness tester
4. Valley Beater

When: Monday, 30th July 2018 | 2 p.m - 4.00 p.m

**Where: Rupee center, 300 NCL Innovation Park,
Dr. Homi Bhabha Road, Pune 411008**

Free training | Open for all | Registration required

Registration: <https://goo.gl/cQDoU6>
