New Delhi: NIDHI (National Initiative for Development and Harnessing Innovations), an umbrella program is pioneered by the Department of Science & Technology (DST), Government of India, for nurturing ideas and innovations (knowledge-based and technology-driven) into successful startups.

In order to realize the Prime Minister's ambitious Initiative on Startup India, DST aims to bring both speed and scale to transform the Startup Ecosystem in the country and has committed 500 crores to implement these new programs in next few years. This was announced by the Union Minister for Science & Technology and Earth Sciences, Dr. Harsh Vardhan, while addressing the media in New Delhi today.

NIDHI focuses on building a seamless and innovation driven entrepreneurial ecosystem especially by channelizing youth towards it and thereby bringing in the positive impact on the socio-economic development of the country. The program aims to provide technological solutions not only to the pressing needs of the society but also targets to create new avenues for wealth and job creation.

NIDHI, by design connects and strengthens all the links of the innovation chain from scouting to sustaining to securing to scaling to showcasing, because a chain is only as strong as its weakest link. The key stakeholders of NIDHI includes various departments and ministries of the central government, state governments, academic and R & D institutions, mentors, financial institutions, angel investors, venture capitalists, industry champions and private sectors. NIDHI strongly addresses the new national aspirations by massively scaling up DST's experience of three decades in promoting innovative startups.

There are 8 components of NIDHI that support each stage of a budding startup from idea to market. The first component PRAYAS (Promoting and Accelerating Young and Aspiring Innovators & Startups), launched on 2nd September, 2016, aims to support innovators to build prototypes of

Himachal Pradesh CM lays foundation stone of Modern Children Home at Mashobra

Wednesday, September 07, 2016

Shimla: Chief Minister Shri Virbhadra Singh today laid the foundation stone of the Modern Children Home (Adarsh Balika Grih) at Mashobra in Kasumpti assembly constituency to cost Rs.

their ideas by providing a grant up to Rs.10 lakhs and an access to Fabrication Laboratory (Fab Lab). The final component is the Seed Support System which provides up to One Crore rupees per start-up and is implemented through Technology Business Incubators. During the current financial year with a view to drive the innovation and startup centric new initiatives in a scaled up manner for its wider outreach across the country, a 450% increase in allocation (Rs. 180 crores) has been made in the Department's budget.

So far, DST has established more than 100 Technology Business Incubators in academic and R & D institutions of repute. These institutions include IITs, IIMs, NITs and other institutions. Each of these incubator is focused on a Technology Domain and all of these combined together house more than 2000 startups currently and offer a total incubation space of approximately 7 lakh square feet.

The Minister, also mentioned that various successful and high growth stories in affordable health care, diagnostics, applications of unmanned aerial vehicles, renewable energy, service oriented online platforms, payment gateways etc. have emerged out of these incubators.
