**When : Monday | 20 July 2020 | Time: 1600 - 1730 hrs**

**This is an Online Event Link to Join will be Shared With Participants**

**Prof. Vijay Chandru**

### Speaker

Vijay Chandru (PhD, MIT 1982) is an academic and an entrepreneur whose research in computational mathematics led to fellowship of both academies of science and engineering. He is a distinguished technologist of the INAE and adjunct professor in BioSystems Science and Engineering at the Indian Institute of Science. At Strand Life Sciences, Vijay was founder executive chairman 2000-2018. He serves on the councils of the national biotech industry body (ABLE) and on vision groups for technology in Karnataka.

Professor Chandru co-founded the Simputer Trust which designed and manufactured India's first indigenous handheld computers at the start of the millennium. He is associated with the International Institute of Art, Culture and Democracy (IIACD) where he pursues his scholarly interests in heritage studies. A Technology Pioneer of the World Economic Forum, he was listed in the 50 pioneers of change by the India Today magazine in 2008.
