Please Provide any other suggestions,comments etc here

Very useful session

Would love to have explanations/ resource links on certain technical terms used in the presentations

too short; legal and financial

Excellent Sessions for start ups.

Session was really Helpful for many deeper insights of Startup!

No

If possible, allow questioning on over voice as subsequet questioning becomes difficult over chat

it was quite quick with no detailed explanations. Since its for an early stage start-up entrepreneurs who have no experience or proper understanding in this

Well planned sessions

I suggest adding more examples and case studies

Need in-depth understanding of financials are necessary for assignment completion. One hour talk won't suffice.

While the sessions were both very informative, the second session was amazing because jargon was very well elaborated on. It helps people like me with no background, to cope up. Thanks.

It is an eyeopener for reg the legal complaince and mandatory financial management , i will contact the speakers for their professional help.Thanks for

Kindly keep the assignment easy as we also have assignments from our respective center.

a little preface in the beginning of the topics and books recommendations. For beginners it is really hard to grasp.

Session was good, but i am hearing most of the words for first time, (MSA,/EULA/ESOP/EBIT/EBITA....etc) so i had to google in parallel to understand what is the full form of it.

Note: I am not blaming the speakers/venture center because we are supposed to know these in longer run.

|--|----|
| The session on Essentials of law was very superficial and vague, the structure of the content and session should be conducted in depth | |
| Please record the sessions. My internet went down a couple of times and hence missed few moments. | |
| Session 1 was not satisfactory. Too much explanation in one slide. The images in the presentation were unclear. | |
| Everything was good and perfect, maybe we can do more detailed seminar of individual topics later. | |
