In addition to the general conditions set forth above, the following conditions shall be applicable:

3. Responsible and Ethical Use

(a) The Work, and any derivatives from the Work, shall not be used for:

- discrimination, exclusion, or violation of fundamental rights;
- development or deployment of autonomous systems in violation of humanitarian principles or public safety;

- any military or defence purposes, except for the Government of India;
- exploiting, harming, or attempting to exploit or harm minors;
- generating or disseminating verifiably false information and/or content with the purpose of harming others;
- generating or disseminating personal identifiable information without due authorization or for unreasonable use; and
- unlawful surveillance or profiling of individuals or groups.

(b) Users shall ensure alignment with the **National AI Strategy of India** and global frameworks such as the **UNESCO AI Ethics Recommendation**.

4. Global Interoperability

This license is designed to be **compatible with the permissive global open-source MIT license**. Works released under this license may be combined with or redistributed under MIT license, provided that the attribution and compliance conditions above are met.
